FOR IMMEDIATE RELEASE

TAIKI OPENS NEW MANUFACTURING FACILITY

Montvale, New Jersey – November 2013 –Taiki Group, a premier, global leader of skincare and make-up beauty tools, products and containers has **opened a new factory in Cambodia**. “This latest manufacturing facility will start by supporting the production and processing of **cosmetic puffs**,” says Jim Perry, President/CEO TaikiUSA.

Taiki has been a leading supplier of powder and make up puffs for more than 50 years. “Opening this factory is a logical way for Taiki to make more of our puff products available to more of our customers. Taiki believes in Cambodia as a manufacturing market and our plan is to expand our product capabilities for this location further in the near future,” adds Perry. Taiki currently has multiple factories in Japan, China, and Malaysia. “By adding a factory in Cambodia allows us to expand our supply chain and offer options to our customers,” states Perry.

Many companies resort to glued or heat sealed puffs. “Taiki continues the tradition of excellence with a hand sewn method which reinforces our commitment to quality and uniqueness,” states Perry.

The Cambodia Factory is located at:

Terak Vithei Samdech Akka Moha Sena Padei Techo HUN SEN
Sangkat No.3, Sihanoukville, Preah Sihanouk Province,
Kingdom of Cambodia

Taiki Group specializes in the [art & science of make-up and skincare application](#). Being an international leader, Taiki offers a global structure that integrates development, manufacturing and logistics to ensure the best quality, superior service and technical expertise. Taiki provides beauty tools, beauty containers and beauty products to major cosmetic and skincare brands around the world.
