

AQUATIC MASK TECHNOLOGY

Outperforms all other masks

KEY BENEFITS

- Superior delivery system for the highest absorption rate of formulation
- High occlusion fit onto skins surface
- Strong adhesion properties for second-skin effect
- One-way path releases active ingredients directly into the skin
- Based on carrageenan gel technology

PARTNER WITH THE EXPERTS

Taiki is the largest non-woven mask suppliers in Asia, producing 120 million masks annually for major beauty brands. By improving the efficacy of masks, great results are achieved – resulting in aquatic technology.
