

TAFRE

A higher performing, patented alternative to animal-based & synthetic brushes

KEY BENEFITS

- Available with Tafre-g and Tafre+
- Antimicrobial properties are incorporated at time of extrusion
- Engineered to mimic high-end squirrel hair but 100% animal-free
- Uses 28% annually-renewable plant based material
- Solution to environmental and ethical concerns with natural hair brush issues
- Better performing and more consistent fibre, with superior pick-up and pay-off for both powder & liquid application

BRUSH COMPARISON

Textured and twisted threading mimics the luxurious feel of high-end squirrel hair, but ensures superior pick-up and pay-off.
