UNDERSTANDING YOUR CHALLENGES

For over 30 years, TaikiUSA has worked with brands of all sizes to create custom, innovative brushes. Understanding consumer needs and using the latest technical brush making advancements we develop the best brush head, handle shapes and sizes to meet varying application needs.

Whether you are looking for an application tool that works best with powders or creams, we help you select the right head shape, fiber density and handle size that works to maximize application.

ECO-FRIENDLY INNOVATION

Taiki's brushes can be made with traditional metal and wood as well as sustainable choices like FSC wooden handles, upcycled coffee ground handles, and renewable bamboo handles. Brushes can be made with Vegan fibers and glue, and PCR or mono materials for easy recycling.

- ✓ Exclusive Anti-Microbial Treatment Options Available
- ✓ Cruelty Free, 100% Human Engineered Fibers
- ✓ Color Matching to Fit any Brand Identity
- ✓ Superior Application
