

# ACNE ISSUES ARE NOT ONE SIZE FITS ALL

More than 50 million people are affected by some version of acne. Acne is the top skincare concern among 18-34 year olds. Pimples can be painful, embarrassing and distracting.

FINDING THE RIGHT SOLUTION IS KEY TO A CLEAR COMPLEXION.

## WHY ACNE?

Acne is a skin condition that occurs when hair follicles become plugged with oil and dead skin cells - causing inflammation, redness, and irritation. There are many reasons people suffer from acne and acne doesn't discriminate based on age, gender, or skin type!

- ✓ Girls and young women experience acne from changing hormone levels.
- ✓ Many adolescents experience acne from androgen hormones (when teens are going through puberty).
- ✓ Adult acne can be caused by fluctuating hormones.
- ✓ Besides different types of hormonal acne, blemishes can be caused by stress, genetics, diet, medications, working out, etc...

## BENEFITS OF ACNE PATCHES VS TRADITIONAL CREAMS

Finding the right solution is the key. There are many types of patches that can help reduce breakouts and blemishes and perform better than traditional creams.

	PATCHES	CREAM
Less Drying	✓	✗
Prevents Picking and Irritation	✓	✗
Helps Protect From Bacteria	✓	✗
Less Noticeable	✓	✗
Convenient	✓	✗
Less Mess	✓	✗

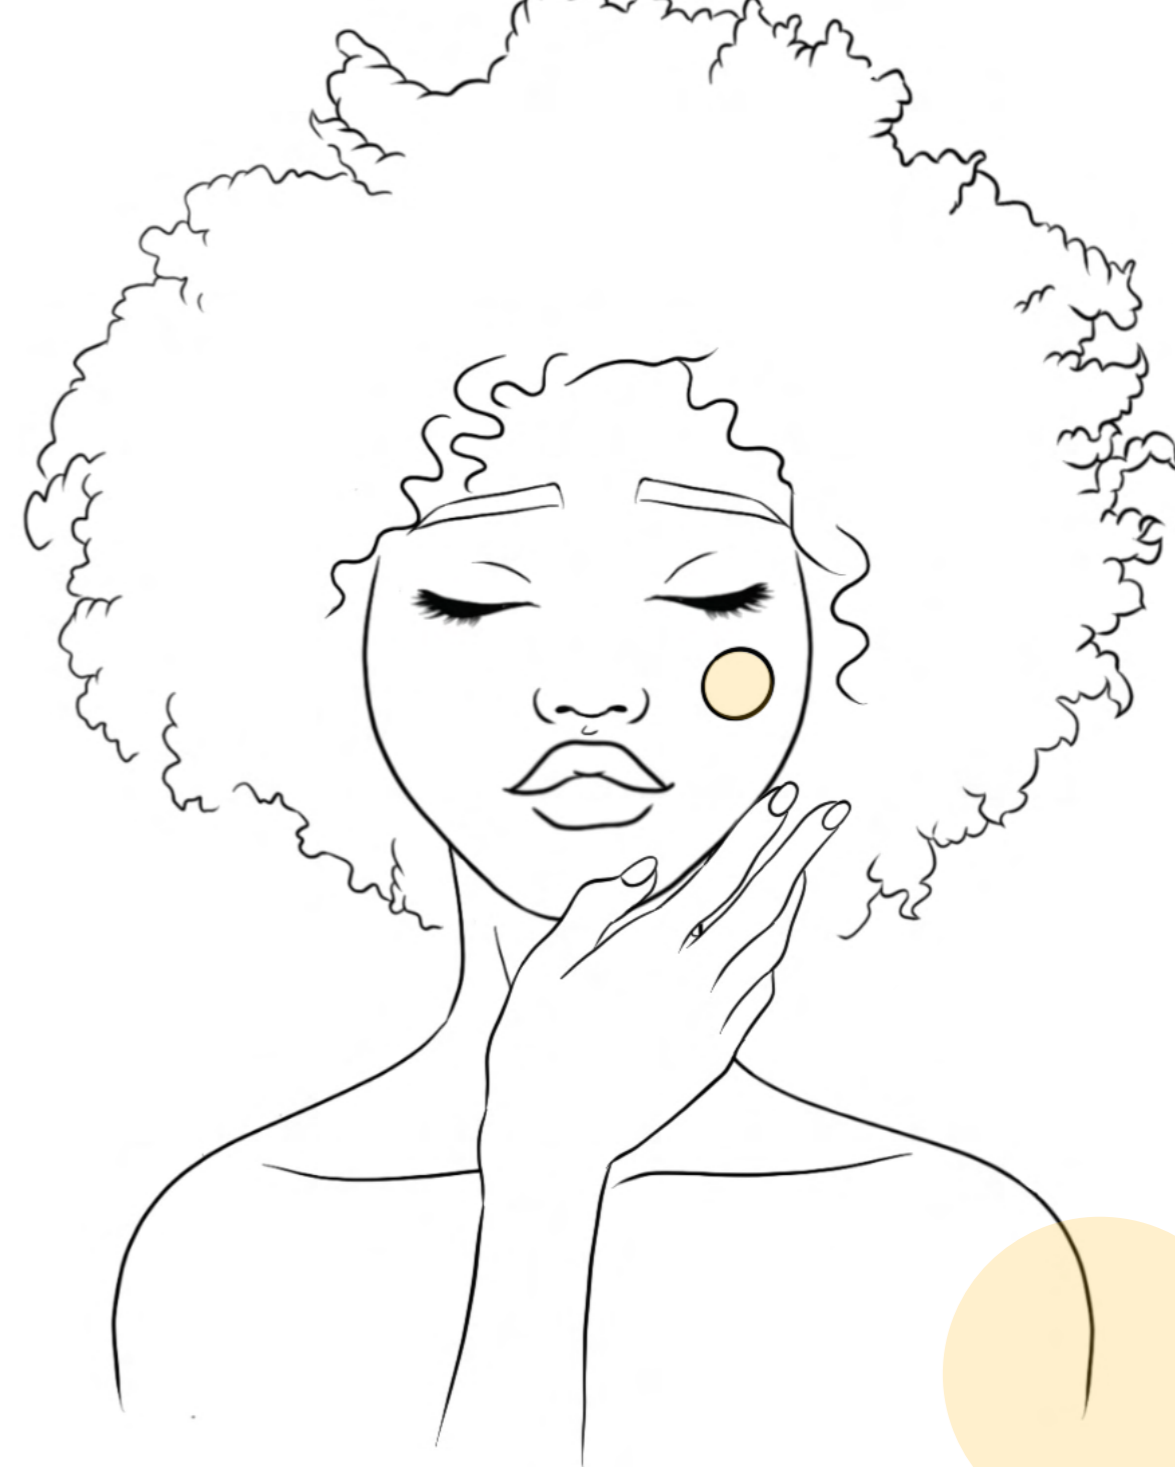

## DIFFERENT TYPES OF ACNE NEED DIFFERENT SOLUTIONS

The treatment for acne can vary based on the type of blemish. Acne patches are a great way to address different concerns.

### PLASTER PATCHES

Combat acne breakouts and soothe skin with these near invisible patches

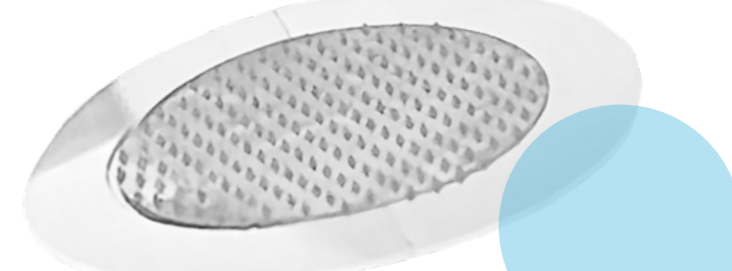

- ✓ Contains Salicylic Acid to penetrate the pores to continuously clean and treat acne
- ✓ Provides a barrier layer to prevent evaporation and to increase efficacy
- ✓ Superior adhesion properties allow for long lasting treatment - day and night
- ✓ Available in different colors. Shapes, sizes and deco

### MICRONEEDLE

Self-adhering patches with water-soluble "needles" infused with actives

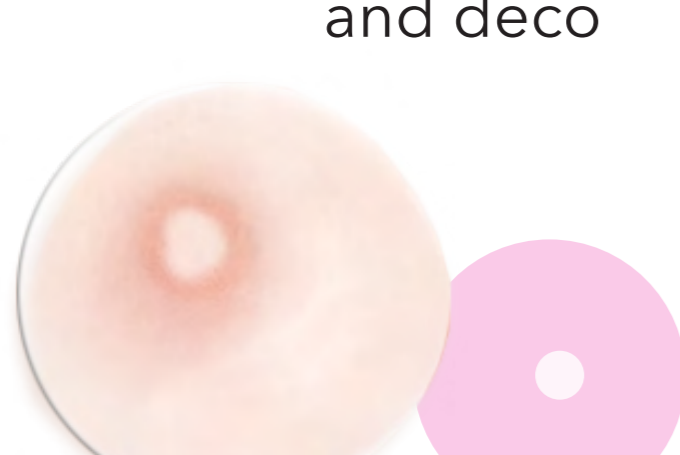

- ✓ Targeted delivery of efficacious ingredients into the skin
- ✓ Non-invasive, pain-free delivery of ingredients to reduce redness and swelling caused by cystic acne

### HYDROCOLLOID

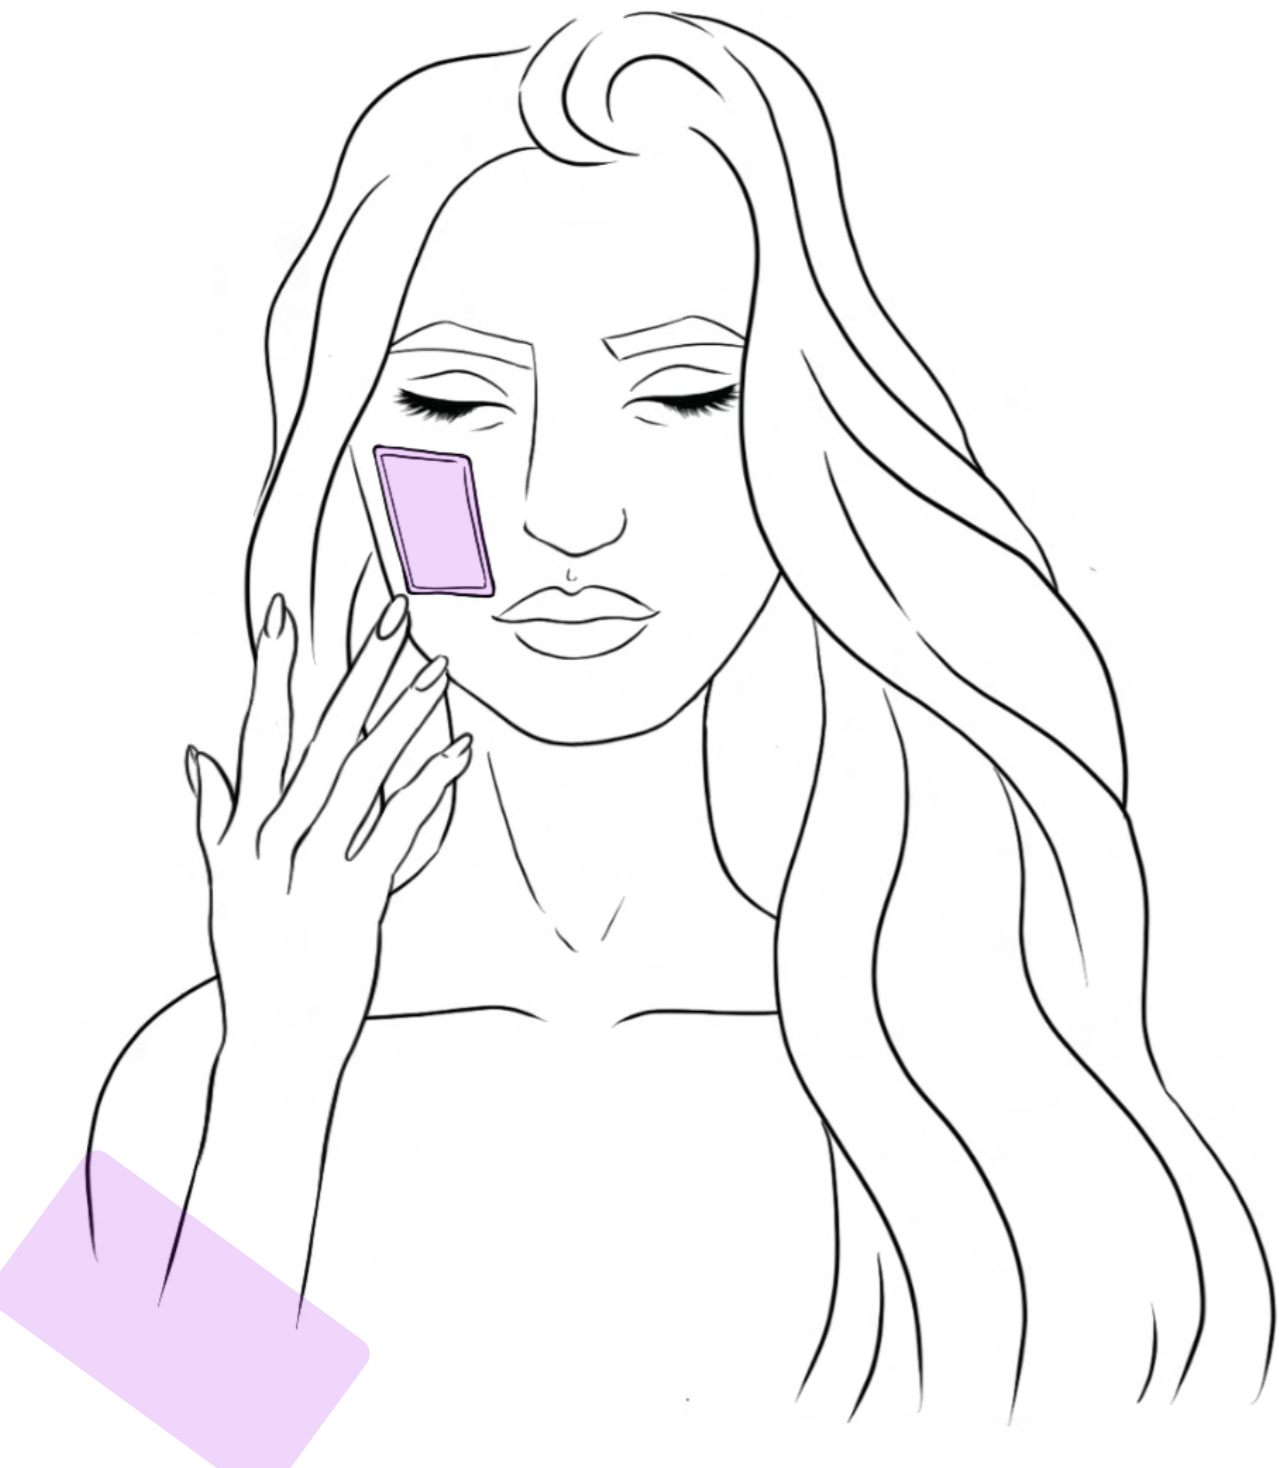

Fluid absorbing agent that draws out pus and impurities

- ✓ Shrinks blemishes, and speeds up the healing process while protecting and soothing the skin
- ✓ Best tool against whiteheads and surface blemishes
- ✓ Available in different shapes, sizes, and deco

### BŌSHI

Waterless blemish treatment with efficacious levels of salicylic acid and mandelic acid and hyaluronic acid to soothe and moisturize

## THE TAIKI ADVANTAGE

- ✓ INNOVATION
- ✓ EXPERTISE
- ✓ CONSISTENCY
- ✓ COMPLIANCE
- ✓ SUPPLY CHAIN

TaikiUSA is a global leader in cosmetic and skincare tools, products and dispensers. From materials and design to delivery, Taiki is your partner for delivering innovative application solutions that address your customers' needs and enhance the consumer experience.

**Growing and Global beauty brands have turned to TaikiUSA to develop unique skincare products and become game changers in the industry.**
